Number of K-12 E-Learning: 1,140

Governance and Regulation

There is no language in the Education Act related to K-12 distance education. Historically, distance education was delivered directly by the Department of Education, Training, Skills Development. Beginning in 2001 this delivery was managed through the Centre for Distance Learning and Innovation (CDLI). In April 2017, the CDLI was transferred to be a division of the Newfoundland and Labrador English School District (NLESD). In addition to its offerings for the NLESD, the district also has a memorandum of understanding with both the *Conseil scolaire francophone provincial de Terre-Neuve-et-Labrador* and the school district representing the Mi'kmaq (i.e., a province-wide First Nations district) to deliver e-learning courses to their students through the CDLI.

The Ministry of Education, Training, Skills Development continues to track the method of delivery that students complete their studies with, and this data is available through the K-12 School Profile System.

Finally, the NLESD has a memorandum of understanding with both the *Conseil scolaire francophone provincial de Terre-Neuve-et-Labrador* and the school district representing the Mi'kmaq (i.e., a province-wide First Nations district) to deliver e-learning courses to their students through the CDLI.

K-12 Distance and Online Learning Activity

The Centre for Distance Learning and Innovation (CDLI) is the sole provider of K-12 distance education in the province. During the 2018-19 school year there were 1,140 students representing 1,840 course registrations in 44 different courses. Distance learning at the K-12 level is delivered using a combination of synchronous and asynchronous tools, with synchronous instruction being the primary method. The CDLI also offered online course reviews for students in both online and blended contexts for a variety of courses throughout the secondary level. The reviews utilized recorded instruction and solutions to sample questions related to provincial learning outcomes.

K-12 Blended Learning Activity

In the past the CDLI allowed any provincial educator (i.e., including classroom teachers) to register in their portal and use the CDLI's asynchronous course materials with their face-to-face

students. While the CDLI has tracked the number of educators that are registered in the portal, an account in the system does not necessarily mean that the person uses the resources in their classroom. Additionally, no data on the number of educator accounts was provided for 2018-19.
